Schedule Change Policy

Increasing or Decreasing your Child's Schedule

If a parent should desire to change a child's schedule in any way, whether it is to add days or an afternoon, it is necessary for the parent to speak with the Admissions Director to make the necessary payment for the change in schedule if there is space in the desired class, please note space is limited. Parents need to provide a 30-day notice in writing to decrease their child's schedule and are responsible for the full payment of the original tuition amount until the next billing cycle of 30 days. After 30 days, the parents can continue paying the adjusted tuition amount. There is no reimbursement on any tuition paid for a schedule change. The 30-day notice is required both for families who wish to decrease the daily hours or number of days each week that their child attends school.
